

User Manual

As shown in the figure:

1. Master power switch: Press this key to turn on or off the fan and the light.
2. Fan direction switch: Press this key to reverse the fan's running direction.
3. Fan speed switch: Press the corresponding fan speed key to control the fan's speed.
4. Light switch: Press this key to turn the light on or off.
5. Color temperature switch: Press this key to switch the light's color temperature.
6. Timer: Press this key to set a time for the fan to turn off automatically.

Remote control pairing: After the controller is restored to power, within 30 seconds, press and hold the main power button on the remote control for 3 seconds or until the lights on the fan start flashing. Use the remote control transmitter to test the lights and fan functions to confirm that the learning process is complete.

FCC statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- 1) This device may not cause interference.
- 2) This device must accept any interference, including interference that may cause undesired operation of the device.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
