User Manual

PCU Statement
Note: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any change in modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment should be installed and operated with minimum distance (150cm) between the radiator & your body.

English

User Manual

Dear user, thank you for using this product. For your safety and benefit, please read this product manual and all the accompanying materials carefully before using the product!

Disclaimer:

1. Please make sure you use the original power supply, and our company will not assume any responsibility for any problems or damage caused by any third-party product.
2. Please do not use cheap cables, but use the cables provided by the first parties, but we do not assume any responsibility for any problem caused by software failure.
3. The product is made of plastic, so it will be slightly affected by the temperature change, but we do not assume any responsibility for any problem caused by temperature change for this reason during use.
4. The equipment is suitable with the lock in software at the factory, which can be used after setup being finished. It is subject to our company's right to change the compatibility of the device. It will not have any impact on the usability. Please make sure that all your settings in product settings.
5. The company reserves the right to improve the product if there is any change in product specification and design, so better choice is required. Please refer to the manual.

Quick Installation

Display

Mini PC
