(12.) Notes about PIR detection

*User can change the PIR detection sensitivity in device settings, we recommend to set sensitivity as "Disabled" or "Low" to reduce false alarm when the battery power is in low environments.

*Disabled: disabled PIR detection

*Low: delay 7 seconds, PIR detects a moving

*Medium: delay 5 second PIR detects a moving,

*High: delay 1 second PIR detects a moving,

### 4. USING THE APP

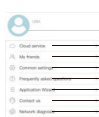
### 5. SPECIAL NOTES!

(1.) The device is equipped with rechargeable lithium batteries. The battery life is often affected by device monitoring. Therefore, the alarm detection function of the device is used in crowded environments, it is recommended to turn off the device or set it to low sensitivity to reduce device wake-up and extend battery life.

(2.) Place the device within the signal range of the Wi-Fi router. If there must be brick or insulated objects between the device and the Wi-Fi router, this may cause weak Wi-Fi signals. Please ensure that the Wi-Fi signal is at a good level when using the device.

(3.) It is a dedicated device with low power consumption design. Every time the device is awakened and will work for few seconds, After that, the device will enter standy mode to save power, You can set the work time in the app settings.

(4.) This device provides one month of free cloud storage and face recognition services. If you need to continue using value-added services after the trial period expires, you need to purchase them in the app.



Click the "Calendar" icon on the right top corner, then choose the date to playback the vicoes from cloud storage.

Choose the desired date to check all videos from the cloud.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Portable device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
