

Family declaration

Date: 13/11/2025

To whom it may concern:

We,

Pietro Fiorentini Spa
Via Enrico Fermi 8, Arcugnano
Italy

hereby declare,

The Ultrasonic gas meters SSM-iCON® 400 are a family of 8 devices.

The Product Marketing Name (or "family name") for all of them is SSM-iCON 400

The model names are:

SSM-iCON-400-U11-001

SSM-iCON-400-U11-002

SSM-iCON-400-U11-003

SSM-iCON-400-U11-004

SSM-iCON-400-U11-NTC-001

SSM-iCON-400-U11-NTC-002

SSM-iCON-400-U11-NTC-003

SSM-iCON-400-U11-NTC-004

All the models share the same construction and radio characteristics but the model names are meant to differentiate them according to the metering class for their applicable purpose of gas metering according to the specific way of doing such task.

Model SSM-iCON-250-U7-NTC-004 was tested as representative for the whole family.

This has no specific reason behind, it was the model which we provided to the lab as could've been any other being all the same equivalent.

Sincerely,

Fabio Cappelletti
