

QwatchPro

What's in the package?

1. Smart watch
2. DS08
2. Magnetic USB charger
3. User manual

User Guide

1. Please charge for 2 hours before switching on to activate the device.
Please align the positive and negative terminals of the charging head.

2. Long press 5s to switch on the device, and choose the language and press "Next step" at the top of the page, then set "Date and Time"; also you could press button after choosing language and connect app and device to sync the "Date and Time".

3. Download the app

Scan the QR code below or search Qwatch Pro on Google Play/App Store to download.

Make sure the Bluetooth function of your mobile device is turned on. Select the device identified in the app and connect to your device.

4. Warm tips:

In Exercise and Pet Care feature, it will make a bubble touch sound when clicked. The "Interactive sound effect" can be turned off in the "Sound and Haptics" settings.

5. Smart Watch Care Tips:

A. Water Resistance Guide:

✓ It's OK For:

Rainwater and water splashes.

Brief rinsing under a **tap / faucet** (using fresh water).

✗ Avoid:

Hot water (e.g., showers, baths, hot springs).

Soaps, shampoos, and shower gels.

Salt water (e.g., seawater). If exposed, rinse immediately with fresh water.

Submersion for extended periods.

High-velocity water (e.g., water skiing)

B. Cleaning Your Smartwatch

Gently wipe all surfaces with the dampened microfiber cloth, then dry thoroughly with the dry part of the cloth before wearing or charging.

C.Charging Instructions

1. Optimal Charging Timing:

For best battery health, begin charging when the battery level drops to between **20% and 30%**. Avoid regularly draining the battery to **0%** before charging.

2. Safety:

Always use **only the original manufacturer's charger and cable** provided with the device. Using incompatible accessories may damage the watch or pose a safety risk.

3. Charging Environment:

Charge the device on a **dry, cool, and flat surface**.

Keep it **away from beds, blankets, pillows, or any flammable materials** to prevent overheating.

4. Charging Duration:

Disconnect the charger once the battery is fully charged (100%). Do not leave it connected for extended periods after reaching a full charge, as this can gradually reduce long-term battery health.

D.Impact & Drop Protection

Avoid Impact: Prevent the watch from **strong impacts against hard surfaces** or being crushed.

Screen Care: Apply particular care to **avoid scratching or cracking the screen**. Do not apply excessive pressure to the display.

E.Extreme Environments

Avoid Exposure: Protect the watch from prolonged exposure to extreme temperatures.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
