

MANUAL

LUX DIFFUSER V2

LOVE AT FIRST SCENT

WARNING

Read all the instructions before using the product.

[DANGER]

1. Use in environments between -10°C and 50°C only. Operation outside this range may damage the product and cause safety hazards. For use below 2000m altitude only.
2. Use only the specified rated voltage. Otherwise, safety risks may occur.
3. Do not expose battery pack or appliance to fire or excessive temperature.

[WARNING]

1. Use only the recommended vaporizing medium. Other substances may produce toxic gases or pose a fire risk.
2. Use only in conjunction with the supplied power supply device.
3. Use only the safe ultra-low voltage specified by the appliance to prevent malfunction.
4. If the supply cord is damaged, replace it with a special cord or assembly available from the manufacturer or service agent only.
5. Rechargeable batteries may only be replaced by qualified personnel (dry batteries excepted).
6. Do not tamper with original operating devices or functions.

[CAUTION]

1. Not intended for persons with reduced physical, sensory, or mental capabilities, or lack of experience/knowledge (including children), unless supervised.
2. Children should be supervised to ensure they do not play with the appliance.
3. If equipped with a battery at the end of its service life, recycle and dispose of properly in accordance with local regulations.

This product is intended for sale and application in a business environment.

RED Article 10 (2)

-This product can be used across EU member states

RED Article 10 (10)

The RF distance between body and product is 20cm

Frequency Range: 2402-2480MHz

Max.RF Output Power: -1.92 dBm

FCC COMPLIANCE STATEMENT

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This transmitter must not be co-located or operating in conjunction with any

other antenna or transmitter.

Not applicable

RF Exposure

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

ISED / CANADA COMPLIANCE STATEMENT

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES - 3 (B)/NMB - 3(B).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

- (1) Cet appareil ne doit pas provoquer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

L'appareil numérique du ciem conforme canadien peut - 3 (b) / nmb - 3 (b).

This device meets the exemption from the routine evaluation limits in section 6.3 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 6.3 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet équipement doit être installé et utilisé à une distance minimale de 20 cm entre le radiateur et votre corps.

Press and hold for 3
seconds to turn the diffuser
on or off.

Adjust Intensity

Press + to increase intensity.
Press – to decrease intensity.

Ambient Lighting

Short press the power
button to cycle through
light colors.

Factory Reset

Press and hold + and –
buttons simultaneously to
restore factory settings.

INTENSITY LEVELS

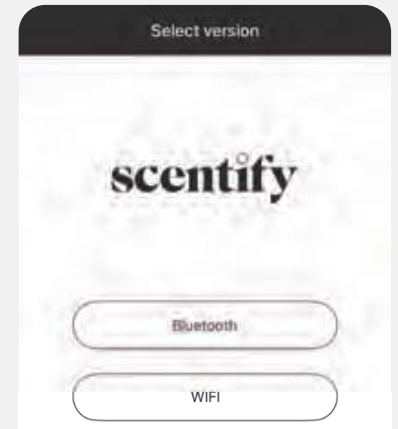

Intensity	Spray Time	Pause Time
1	15 Seconds	300 Seconds
2	15 Seconds	150 Seconds
3	20 Seconds	120 Seconds
4	20 Seconds	85 Seconds
5	25 Seconds	80 Seconds
6	30 Seconds	75 Seconds
7	30 Seconds	60 Seconds
8	30 Seconds	50 Seconds
9	30 Seconds	40 Seconds
10	30 Seconds	33 Seconds

CONNECTING YOUR DIFFUSER - BLUETOOTH

1. Open the Scentify App

- Tap Bluetooth Connection
- See Connection Tips below if your diffuser does not appear

2. Select Your Diffuser

- Choose your diffuser from the device list

3. Enter the Password

- Enter the default password: **8888**
- Tap Login

4. Change password (optional)

- Tap the About tab
- Tap Change Password

5. Edit Device Name (optional)

- Tap the device name or label to edit it
- Tap Save

CONNECTION TIPS

- Make sure Bluetooth is enabled on your phone
- Allow Bluetooth permissions when prompted
- Stay close to the diffuser during setup
- If permissions were denied, enable Bluetooth access in your phone settings
- Make sure the diffuser is powered on before connecting

SETTINGS

6. Change Light color

- Tap the color icons to change the color of the diffuser logo light.

7. Adjust brightness

- Tap Brightness to adjust the logo light brightness (Off, Low, or High).

6

7

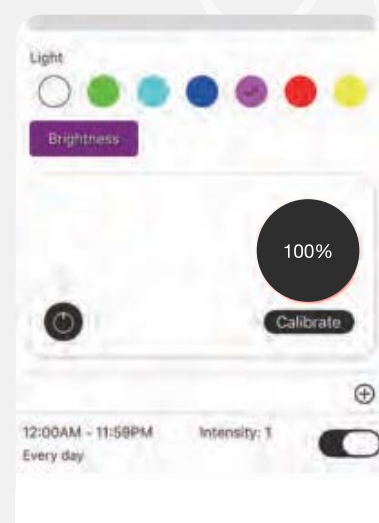

8. Calibrate

- When the bottle is empty, tap Calibrate to reset the oil level to 0%
- Refill the bottle with oil (up to 200ml)
- The diffuser will automatically synchronize and track the remaining oil level based on the amount added

8

9

10

9. ON/OFF Button

- Tap to turn the diffuser on or off

10. Select a Schedule

- Tap a schedule to edit settings
- Tap + to add a new schedule
- Swipe left to delete a schedule

11. Set Operating Hours

- Select the start and end time for your schedule

12. Select Repeat Days

- Choose the days you want the diffuser to run
- All days are selected by default

13. Adjust Intensity

- Use - or + to adjust intensity levels

14. Create Custom Intensity

- Set custom spray and pause durations

15. Save Settings

- Tap Save to apply your schedule and settings

15

CONNECTING TO APP - WIFI

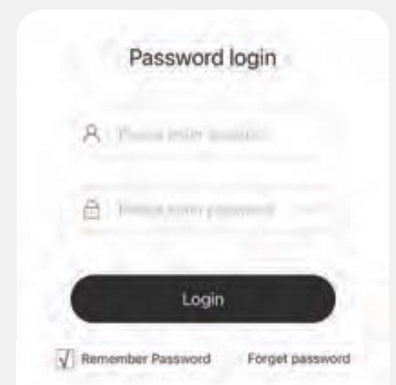

1. Open the Scentify App

- Tap **WiFi Connection**
- Make sure your phone is connected to a **2.4GHz WiFi network**

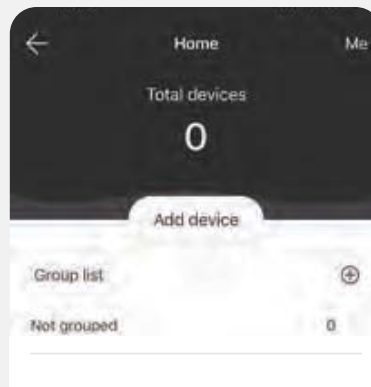

2. Login or Create an Account

- Login to your existing account
- Or create a new account

3. Add Your Diffuser

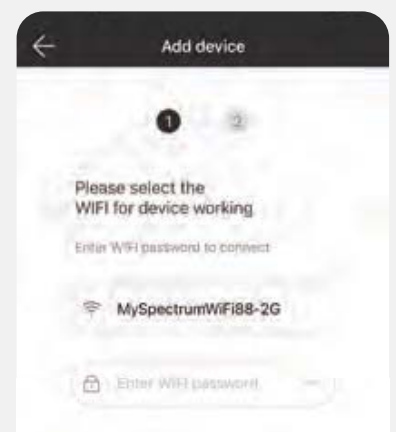

- Tap **Add Device**
- Select your diffuser from the device list
- Tap **Add**

4. Select Your WiFi Network

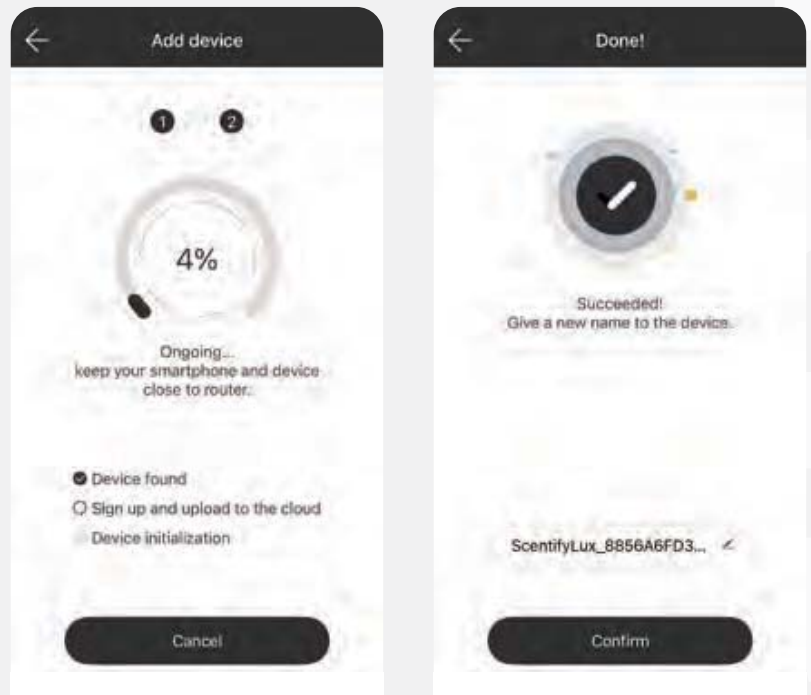

- Choose your WiFi network
- Enter your WiFi password
- Make sure your phone is connected to the same network

NOTE: Only 2.4GHz WiFi networks are supported.

5. Complete Setup

- Wait while the app connects the diffuser to the cloud and initializes the device.
- Keep your smartphone and diffuser close to the router during setup.
- When setup is complete, enter a custom name for the diffuser if desired.
- Tap Confirm to finish.

6. Configure Device Settings

- Tap your diffuser to access Device Control
- For scheduling, intensity settings, calibration, and other app functions, see the **Bluetooth Setup & App Settings** page

CONNECTION TIPS

- Make sure **Bluetooth and WiFi** are enabled on your phone
- Use a **2.4GHz WiFi network** during setup
- Make sure your phone is connected to the same **WiFi network** you are connecting the diffuser to
- Allow **Bluetooth and Location permissions** when prompted
- Stay close to the diffuser during setup
- If permissions were denied, enable **Bluetooth and Location access** in your phone settings
- Make sure the diffuser is powered on before connecting

TROUBLESHOOTING

Problem	Solution
Diffuser is not producing scent	• Ensure the bottle is properly screwed in and fully tightened • Check that the bottle contains fragrance oil • Verify the diffuser is turned on • Ensure your app schedule is active • Clean the diffuser (see Cleaning section) • Seals may be loose or damaged — replace if needed
Oil Leakage or Unusual Noise	• Too much oil in the bottle can cause leaking or unusual noise • Ensure the bottle is properly screwed in and fully tightened • Seals may be loose or damaged — replace if needed

CLEANING

1. Remove the oil bottle from the diffuser.
2. Empty any remaining fragrance oil from the bottle.
3. Fill the bottle with isopropyl alcohol (rubbing alcohol). For a deeper cleaning, warm water and white vinegar may also be used.
4. Remove the bottle and empty any remaining liquid
5. Run the diffuser at the highest intensity setting for approximately 15 minutes to flush the internal system.
6. Remove the bottle and empty any remaining cleaning solution.
7. Allow all parts to fully dry before refilling with fragrance oil.

MAINTENANCE & STORAGE

- Power off the diffuser when the bottle is empty.
- Remove the oil bottle before transporting or storing the diffuser.
- Store the diffuser upright in a cool, dry location at normal room temperature.
- Clean the diffuser periodically to maintain optimal performance.
- Inspect the bottle, tubing, and seals periodically for wear or damage.

RESET THE DIFFUSER

Press and hold the + and - buttons simultaneously for approximately 5 seconds to restore factory settings.
