Product specifications

Model : W342 Brand : DUMTERR
Output for iWatch : 2.5W Input : 5V==3A 9V==2A
Output for earbuds : 3W
Output for phone : 15W/10W/7.5W/5W

How to use the product

- Put the phone into the correct wireless charging area, you can see the charging indicator blue light breathing slowly fiashing, indicating that the phone is charging normally,The blue light is always on when fully charged, and the blue and green lights flash alternately if the charging is not normal.(Standby state: The green light is always on when 9V is input, and the green light is flashing when 5V is input, only the mobile phone module.)

- To charge the watch, place the watch in the wireless charging area of the watch and align it with the magnet, the charging indication on the watch display will light up, indicating that the watch is charging.

- Bluetooth earbuds charging: place the Bluetooth earbuds flat on the wireless charging area. (Note: Please do not wear the 3mm silicone protective cover. Otherwise, it may lead to poor contact and cannot be charged).

Precautions

- During charging, there is no metal of the back of the phone.
- The charging distance is 2–6mm, please do not wear a protective case that is thicker than 3mm.
- The lower the temperature, the faster the charging speed. Faster charging in winter than in summer.
- Do not use or place the product under high temperature, or expose the product to direct sunlight.
- Do not immerse the product in water or near fire.
- Charging will be interrupted when the functional temperature exceeds 104°F to avoid damage to the phone/watch/earbud battery.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must acceptany interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's

authority to operate the equipment.

NOTE: This device has been tested and found to comply with the limits for a Class B digital device,pursuant to Part 15 of the FCC Rules.These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates,uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions,may cause harmful interference to radio communications.

However,there is no guarantee that interference will not occur in a particular installation.If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
–Reorient or relocate the receiving antenna.
–Increase the separation between the device and receiver.
–Connect the device into an outlet on a circuit different from that to which the receiver is device.
–Consult the dealer or an experienced radio/TV technician for help.
