Charging without display/unable to charge	The charging line is not well connectedwith the host and power adapter	Reconnect after unplugging
Massage intensity becomes weak	Low battery	Charge in time

Daily Maintenance

Storage: If this product has not been used for a long time, please cover it to avoid dust, and store it in a well ventilated and dry place, and please avoid exposure to sunlight, corrosion and damp environment.

Power Supply Check: Please check the power supply first. If the power supply voltage exceeds the specified range of the machine, please do not turn on the machine for use.

Cleanness: This product shall be cleaned under the shutdown state. You can use a clean towel dipped with a proper amount of water to wipe. During the cleaning process, water or other liquids should be prevented from entering the body to avoid short circuit during use. The non detachable products are rinsed in water.

Recycling Description of Product Parts and Components

The name and content information of harmful substances in this product are shown in the following table.

Name of Parts and Components	Harmful Substances					
	Pb	Hg	Cd	Cr6+	PBB	PBDE
Metal Parts	×	○	○	○	○	○
PCB Board	×	○	○	○	○	○
Plastic Parts	○	○	○	○	○	○
Wire Material	○	○	○	○	○	○
TPU Airbag	○	○	○	○	○	○
Motor	○	○	○	○	○	○

○ : It means that the content of the harmful substance in all homogeneous materials of the component is below the limit specified in GB/T26572.

× : It means that the content of the harmful substance in at least one homogeneous material of the component exceeds the limit specified in GB/T26572. (There is no substitute process or material in the industry at present)

Discard Precaution

Please follow up the rules of recycling of the rechargeable battery (lithium ion battery).

- Attentions:
- The battery used in this product is a special rechargeable battery, which cannot be used in other products. Please do not
 - charge the rechargeable battery that has been taken out.
 - Please do not put this product into the fire to make it overheated so as to cause any danger.
 - Please do not use nails to pierce, impact by gravity or disassemble this product.
 - Please do not directly connect the positive and negative electrodes of the battery with metal parts.
 - Please do not store this product together with metal items such as necklaces and hairpins.
 - Please do not charge, use or place this product near the stove or under the sunlight.
- The above situations would cause problems such as heating, fire, cracking, and so on.

- Warning:
- Please keep the removed rechargeable battery out of the reach of infants to prevent it from being swallowed by mistake.
 - If swallowed by mistake, please ask a doctor for help immediately.
 - When the battery liquid leaks, please do not touch the liquid with bare hands, and handle it according to the following methods.
 - When the battery liquid enters the eyes, it may cause blindness. So, please do not rub the eyes directly with your hands, wash them immediately with water and seek medical advice.

- When the battery liquid gets on your body or clothes, it may cause skin inflammation or injury. So, please wash it with clean water. If you still feel unwell, you need to ask a doctor for help immediately.
- Only this product can be disassembled when it is discarded. If it is not disassembled, it may lead to fire, electric shock, injury and other accidents. If it needs to be repaired (except for battery replacement), please consult the manufacturer who originally purchased this product.

Battery Removal Steps:

- Make sure that the battery is powered off, and pry the left and right shells with professional tools;
- Unscrew the fastening screws of the internal bracket with a screwdriver;
- Unscrew the screws at the circuit board;
- Cut the battery lead with scissors;
- Remove the battery.

Non-professionals should not disassemble this product by yourselves

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television

E Y E M A S S A G E R

reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
