FCC ID: 2B9FL-V02 Function Operation Instructions (English) 1. Power On Take the earbuds out of the charging case to power on automatically, or press and hold the multi-function button on either earbud for 3 seconds to power on. 2. Power Off Place the earbuds into the charging case to power off automatically, or press and hold the multi-function button on either earbud for 5 seconds to power off. 3. Auto Reconnection after Power On After automatic pairing, the Bluetooth earbuds will prioritize entering the reconnection mode and automatically reconnect to the previously paired mobile phone when powered on to the second time. 4. Play Phone In standby mode, single-click the multi-function button on either earbud to play music directly. During playback, single-click the multi-function button on either earbud to pause playback. 5. Track Switching During music playback, press and hold the multi-function button on the left earbud for 2 seconds to switch to the previous track; press and hold the multi-function button on the right earbud for 2 seconds to switch to the next track. 6. Volume Adjustment Double-click the multi-function button on the left earbud to increase the volume level by level; double-click the multi-function button on the right earbud to decrease the volume level by level. 7. Incoming Call Answer When there is an incoming call on your mobile phone, single-click the multi-function button on either earbud to answer the call. 8. Call Hang-up During a call, single-click the multi-function button on your mobile phone; press and hold the multi-function button on either earbud for 2 seconds to reject the call. 9. Incoming Call Rejection When there is an incoming call on your mobile phone, press and hold the multi-function button on either earbud for 2 seconds to reject the call. 10. Last Number Redial In standby mode or during music playback, triple-click the multi-function button on the left earbud to dial the last number in your call history.	11. Voice Assistant Activation Triple-click the multi-function button on the right earbud to activate Apple Siri or Google Assistant for voice-controlled operations on your mobile phone. 12. Low Battery Reminder When the battery power of the Bluetooth earbuds is low, a low-battery alert tone will play frequently until the earbuds power off due to insufficient battery. FCC WARNINGS This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: — Reorient or relocate the receiving antenna. — Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help.	Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance, such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
