

Antenna Specification

Project name: OD.P.SCSD16.MT926

Specification description: Built-in antenna-2.4G-black 1.13 tin tin wire-1st generation terminal

-L=110mm-FPC-38.5×10.2mm

Manufacturer: Zhongshan Boantong Communication Technology Co., Ltd.

3. Product drawing

Electrical parameters	
Frequency Range	2400~2500MHz
input resistance	50 Ω
VSWR	Sample sealing against engineering
Power Capacity	<10w
Polarization mode	linear polarization
Radiation direction	Omnidirectional
Connector model	terminal
Mechanical parameters	
line length	110±3mm
Terminal holding force	≥1kgf
coaxial cable	Black 1.13 tin tin wire
Salt spray test	24H
Environmental parameters	
Operating temperature	-30℃~65℃

Electrical performance test report (complete machine)

S11 Parameter

VSWR data

BT	1.78	1.75	1.74	--	--	--
----	------	------	------	----	----	----

Antenna darkroom test data

Frequency (MHz)	BT	
	Gain (dBi)	Efficiency (%)
2400	1.79	39.81
2410	1.78	41.80
2420	1.91	43.44
2430	2.14	44.71
2440	1.89	41.56
2450	2.47	46.57
2460	2.34	45.78
2470	2.28	46.35
2480	2.29	47.56
2490	2.14	45.91
2500	2.31	46.69

Antenna pattern

BT-2450MHz

Product Packaging Specifications

PACKING CRITERION

Product number: 74220088

Product specifications: built-in antenna-2.4G-black 1.13 tin tin wire-1st generation terminal-L=110mm-FPC-38.5×10.2mm

1. Label requirements (refer to the corresponding product label production requirements according to the customer name, and follow the ordinary label requirements if there is no requirement)

The inner label is about **10cm** long and **6cm** wide

demand side	*****
Supplier Zhongshan Boantong Communication Technology Co., Ltd.	
Material coding	*****
Production order number	*****
Product name and specification***** Inspector**	
Quantity/Unit*****	date****. **. *
Traceability Code***** Serial Number**	

The outer label is about **10cm** long and **6cm** wide

demand side	*****
supplier	Zhongshan Boantong Communication Technology Co., Ltd.
Material coding	*****
Production order number	*****
Product name and specification***** Inspector	**
Quantity/Unit*****	date****. **. *
Traceability code***** serial number	**

2. Packing requirements

Job description:

1. inner packaging:

Product 50 PCS/sachet,
200 PCS/big bag

2. Outer packing:

Quantity/carton according to actual packing

Precautions:

- Whether to add partitions and pearl cotton;
- Attachment of labels, such as ROHS, etc.;

9. Antenna Installation Diagram
