NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

Control with your phone

The lamp can be connected to the App in the following ways.

- Download and install the App:
- Method 1: Scan the QR code to download.
- Method 2: Search 'Raiangel' on the Apple App Store or the Google Play.

Pair the lamp with your smartphone

1. Power on the lamp.
2. Keep your smartphone as close to the light as possible.
3. Activate the Bluetooth function on your smartphone and the lamp will automatically connect.

Note: Android need to open the Bluetooth and Location Services, iOS need to open the Bluetooth and 'Allow New Connections'.

Location Services: For Android version <12, to scanning the Bluetooth, need to allow 'Location Services'. For Android version >12, to scanning the Bluetooth, just need to Allow the 'Nearby devices' permission, not need the 'Location Services'.

WARNING

- * DO NOT IMMERSE IN FIRE
- * CHILDREN UNDER THE AGE OF 16 SHOULD USE THIS PRODUCT UNDER ADULT SUPERVISION.
