Caution:
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.

Manufacturer:
Shenzhen Topwise Communication Co.,Ltd.
5/F, Shengtang Building East Block, Tairan Road 9, Futian District, Shenzhen 518042, China.

5 Printer Indicate LED
- 6 SIM card slot (optional)

7 TF card slot

8 RJ45

9 USB 2.0 Type A

10 DC Jack
- 11 USB 2.0 Type C

12 Power key

13 Audio Jack

14 NFC reader area (optional)

Appearance may vary slightly depending on the configuration.
Please refer to the actual product. Images shown are for reference only.

Usage

Power ON/OFF

1. Connecting DC Power Cables
2. Power ON: Press and keep the power key until LCD screen lights up.
3. Power OFF: Press and keep the power key until LCD screen off.

Card slot

1. SIM Card is placed in the lower layer
2. TF Card is placed in the upper layer

Non-financial card swipe

Printer

1. Use the tool to open the paper bin
2. Place the paper roll according to the diagram
3. Pull out part of the paper
