The diagram illustrates two alternative methods for mounting a speaker to a wall. On the left, a 'Screw Connector' is shown being attached to the back of the speaker. On the right, an 'Adhesive Bracket' is shown being attached to the back of the speaker. Both methods are labeled with 'die Knob' (the knob) pointing to the speaker's back. The two options are separated by a plus sign and the word 'or'.

Phone Not Charging:
Check if the phone is properly aligned with the charging coil.
Verify that the USB cable is securely connected.

Weak Magnetic Hold:
Clean the magnetic surface and remove any debris.

Overheating:
Stop using the charger and allow it to cool down.
Avoid using the charger in high-temperature environments.

Keep the charger away from water or other liquids.
