SRD Module

A close-up photograph of a black integrated circuit (IC) chip mounted on a blue printed circuit board (PCB). The chip is square with a grid of gold wire bonds around its perimeter. The text "artosyn" is printed in a stylized font on the top half of the chip, with "AR8003s" below it. Further down, "CAK152" and "2136" are printed. The PCB has various components, including small surface-mount capacitors and resistors, and some text like "C201-D" and "Y2" is visible on the board.
