

FOLDABLE KEYBOARD

Thank you much for using the keyboard provided by our company. Please read this manual carefully before using this product.

KEYBOARD CHARACTERISTICS:

- Travel foldable keyboard
- Scissor switch
- Interface: Bluetooth 3.0
- Style: office
- Fold Size: 148x93x18.6mm
- Weight: 137g
- Wireless distance: 10m
- Key life: 5,000,000 times
- Power supply: 150mA rechargeable battery
- Compatible with IBM PC/MAC/iPad/iPhone
- Can work on Windows/LINUX/IOS/Android

KEYBOARD SPECIFICATION:

Working voltage:	3.2-4.2V
Power supply:	Rechargeable Li battery
Working current:	15mA
Low Battery Alarm:	3.2V
Battery Capacity:	150MAh
Working Frequency:	2.402GHz-2.4835GHz

Working hours: 40

Recharging time: 2h

Sleep Mode: after 10 minutes no operation, Bluetooth will be disconnected and the keyboard will be turned into sleep mode.

Wake up Mode: Press any key to wake up

Ambient conditions

Working temperature: 5°C-50°C
Working humidity: 10%-90%
Storage temperature: -20°C-70°C
Storage humidity: 5%-95%

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

UK CA CE   FC RoHS MADE IN CHINA

FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
