How to Use

Power On / Power Off

Press and hold the main power button to turn the speaker ON. Press and hold the same button again to turn the speaker OFF.

Bluetooth Pairing

- 1 Press and hold the main power button to turn on the speaker.
- 2 The speaker will enter Bluetooth pairing mode automatically.
- 3 Enable Bluetooth on your mobile phone or Bluetooth-enabled device.
- 4 Search for available devices and select the speaker.
- 5 Once connected, you can play music through the speaker base.

Voice & Sound Prompts

- Power On: A prompt sound will be heard when the speaker is turned on.
- Power Off: A prompt sound will be heard when the speaker is turned off.
- Bluetooth Connected: A prompt sound will be heard once Bluetooth connection is successful.

Charging Instructions

Connect the charging cable to the charging port on the speaker base and connect the other end to a power source. The built-in 400 mAh battery will begin charging.

Charging Indicator Light

- Red Light: Charging in progress

- Light Off: Fully charged

Safety & Usage Notes

- Do not immerse the speaker base in water.
- Ensure the speaker base remains dry during use.
- Do not expose the product to extreme heat or fire.
- Do not disassemble the speaker base.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition, compliance with exposure requirements.

This equipment should be installed and operated with minimum distance 0 mm between the radiator & your body.
