Tip: Please note that you can still navigate through the menu during the cool down period.

MyVuse App Download Instructions

FOLLOW THESE STEPS:
1. Scan the QR code.

2. Download the MyVuse App.
3. The MyVuse App will guide you through the remaining steps to verify your age and pair your Vuse Ultra device.
4. Enjoy using Vuse Ultra.
Or visit this link: vuse.com/activate

Minimum system requirements:
Android 8.0 or later.
iOS 15.0 or later.

MyVuse App

Find my vape
The MyVuse App helps you locate your Vuse device through Bluetooth® when connected by making it vibrate and blink. If disconnected it will show the last known location when your device was last synced.

Battery Recharge Reminders
Set the battery level you want to be alerted at so your Vuse Ultra device can always stay charged.

Cloud Control
Use the MyVuse App to control the amount of vapor production.

Power Save Mode
Use the MyVuse App to enable and customize the Power Save Mode.

Important Product Information

- This product should only be connected to a safety extra-low voltage (SELV) circuit rated at 5VDC, 2.0A. Using an AC adapter with a current output lower than this will result in a slower charge time.
- This product is not intended for use by persons with reduced sensory, physical, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the product by a person responsible for their safety.
- If you have any questions about the use of your Vuse Ultra device or any other Vuse products, please contact the Vuse Customer Care Team at: 1-877-614-VUSE

Regulatory Compliance Information

If this equipment does cause harmful interference to radio or television reception, which is found by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Visit vuse.com/faqs for additional product information prior to use.

Disposal

This product contains a lithium-ion battery. Remove battery only for disposal and recycling.

Step 1. Slide the battery release switch towards the charging port.
Step 2. Slide the battery out of the Vuse Ultra device.

If the battery is accidentally released during use, push and click back into place. The Vuse Ultra device will restart and display the welcome message.

VUSE ULTRA

USER GUIDE

vuse.com/faqs

Read before use. Keep this guide for future reference.

Low Liquid Indications

Vuse Ultra Smart Pods come with a useful feature that estimates how much liquid is left.

- If your pod is running low (20% or less), your Vuse Ultra device will show a low liquid level screen after each puff.

20% Liquid Level

10% Liquid Level

0% Liquid Level

Insert Pod Animation

- For the best experience, always visually check the liquid level.

MyVuse App

DOWNLOAD THE MYVUSE APP TO ENJOY A MORE PERSONALIZED VAPING EXPERIENCE WITH APP FEATURES SUCH AS:

Device Lock
The MyVuse App gives you options to lock your Vuse Ultra device so no one but you has access.
1. Manual Lock: Allows you to lock and unlock your Vuse Ultra device with a swipe on the home screen.
2. Auto-Lock: Allows you to set a countdown timer that will automatically lock your Vuse Ultra device. The timer starts once your Vuse Ultra device goes out of Bluetooth® range.

Important Product Information

- Vuse Ultra device is IPX4 rated, making it splash resistant to water.
- If water droplets get on Vuse Ultra device, gently dry it with a piece of cloth.
- If Vuse Ultra device becomes fully wet or immersed in water, do not use. If this occurs, please contact the Customer Care Team at 1-877-614-VUSE.
- Be aware of the risk of the Vuse Ultra device terminals being short-circuited by a foreign object. The Vuse Ultra device has an overvoltage, overcurrent, and a short-circuit protection function.
- When puffed, if a short circuit is detected, the screen will display an error icon and the Vuse Ultra device will cut the power to the Vuse pod and the vapor production will stop.
- Rated input for charging cable: 5VDC, 2.0A.

Regulatory Compliance Information

FCC Compliance Statement
This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

Safety Information

This is a tobacco product. No tobacco product is safe or without risk. Visit vuse.com/faqs for important product information before use.

Who is Vuse Ultra for?

1. Vuse Ultra is for adult tobacco consumers of legal age. Underage sale prohibited.

What should I be careful of when using Vuse pods?

1. Keep pods out of reach of children and pets due to risk of nicotine poisoning and choking.
2. Do not use pods if they show signs of damage or tampering.
3. Do not tamper with or open pods.
4. Avoid pod liquid contact with eyes, skin, or clothing. In case of contact, rinse affected area immediately and seek prompt medical advice.

Safety Information

5. Electromagnetic fields emitted by the Vuse Ultra device and the paired MyVuse App may interfere with pacemakers, defibrillators, hearing aids, and/or other medical devices if used within a close distance. Consult your physician and medical device manufacturer for information specific to your medical device.

Vuse Ultra contains a replaceable, rechargeable lithium-ion battery.

1. Do not store the Vuse Ultra device in direct sunlight or in a hot vehicle. Do not expose the Vuse Ultra device to heat or fire.
2. Only use the battery provided with your Vuse Ultra device. Only charge the battery in the Vuse Ultra device.
3. Do not attempt to repair the Vuse Ultra device or its charging cable.

Inserting Your Battery

Insert Battery
Ensure the Vuse logo is on the same side for both the Vuse Ultra device and battery.

Upon correct battery insertion, the Vuse Ultra device will vibrate twice, and show the following screens. If a Vuse pod is not inserted, the Vuse Ultra device will also display an insert pod animation.

Ultra

Device Loading

Battery Level

QR code for the App

Insert Pod Animation

You are now ready to vape.

Tips
• For optimal performance, your Vuse Ultra device should be fully charged before first use.
• When puffing, the Vuse Ultra device will not display anything on the screen.
• Your Vuse Ultra device will be set to large cloud size as default.

Locking/Unlocking Your Vuse Ultra

You can lock and unlock your Vuse Ultra device by pressing the menu button 3 times in 2.5 seconds. To indicate that the device is locked, it will buzz twice and a lock icon will appear.

The Vuse Ultra device will not allow puffing when it is locked. If you try puffing when the Vuse Ultra device is locked, the screen will show the locked icon and vibrate twice to remind you to unlock.

Locked

x2 Buzz

Unlocked

x1 Buzz

Keep out of reach of children and pets, even when locked.

How to Charge Your Vuse Ultra

Click the Menu button once to view your battery level.

Tips
• Your Vuse Ultra device may run out of charge before the Vuse pod is finished, so don't automatically discard the pod when charging the Vuse Ultra device as there may be liquid in it.
• It should take about 15 minutes via USB-C and about 60 minutes via wireless charging to reach 80% charge level.
• When your Vuse Ultra device's battery falls to 30%, it will vibrate once, and the screen will display the battery icon and percentage after each puff. At 10%, the device will vibrate again. You can change these thresholds via the MyVuse App.

How to Change Cloud Size

- Press the Cloud Control Button once to see the current cloud size (amount of vapor produced).
- Press up or down to select your cloud size setting.

Large

Medium

Small

- Your Vuse Ultra device will be set to large cloud size as default.
- You can also change the cloud size from the MyVuse App.

Safety Information

5. Do not drink the Vuse pod liquid. If ingested, seek prompt medical attention.

What should I be careful of when storing or using the Vuse Ultra device?

1. Keep out of reach of children and pets, even when locked.
2. Only for use with Vuse pods and Vuse Ultra charging cables and accessories.
3. Do not use the Vuse Ultra device or its charging cable if they show signs of damage or tampering.
4. Do not use the Vuse Ultra device if it is wet, damaged, malfunctioning, or feels unusually warm. If this occurs, please contact the Customer Care Team at 1-877-614-VUSE.

Safety Information

4. Intended Storing/Operating Temperature: 32°F to 95°F
5. Intended Charging Temperature: 59°F to 77°F

What should I be careful of when charging the Vuse Ultra device?

1. Do not leave the Vuse Ultra device unattended while it is charging.
2. Follow the safety information for the charging plug (AC/DC adapter) that you are using with the Vuse Ultra charging cable.

1. Do not use the Vuse Ultra device if it is wet, damaged, malfunctioning, or feels unusually warm. If this occurs, please contact the Customer Care Team at 1-877-614-VUSE.

Know Your Vuse Ultra
