· Do NOT make unauthorized alterations to this product.

· Use this product only with an agency-approved power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).

· If the battery leaks, do not allow the liquid to come in contact with the skin or eyes. If contact is made, seek medical advice.

· Do not expose products containing batteries to excessive heat (e.g. from storage in direct sunlight, fire or the like).

· Do NOT wear the headphones while charging.

· The headphones do not play audio while charging

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in aresidential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipment off and on, the useris encouraged to try to correct the interference by one or more of the following measures:

· Reorient or relocate the receiving antenna.

· Increase the separation between the equipment and receiver.

· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

· Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by iKF could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules standard(s). Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with FCC radiation exposure limits set forth for general population.

This transmitter must not be co- located or operating in conjunction with any other antenna or transmitter.

TIPS

1、Make sure the headset and the connected device are within a valid connection range and there are not too many obstacles that interfere with the signal;
2、It is normal for the headset to be disconnected occasionally. Just like WiFi, occasionally the connection is unstable. It may be due to interference in signal transmission. Please wait a moment or change the location to resolve;
3、When the headset cannot be connected to the device, please check whether the headset has power or is connected to other devices;
4、Please fully charge the Headphone once a month. If the Headphone isnot used for a long time, the battery of the Headphones may be damaged.
5、The sound insulation and sound leakage of headphones are related to the way of wearing the headphones and the volume of the headphones.
You can adjust the wearing angle and degree of ear wrapping of the headphones in time according to the actual comfort of use. Please close the ear/head foam part of the headphone as much as possible.
6、Please use a standard- compliant charging head to charge the headset.
7、Do not wear the product for bathing, or use it in the rain, and do not soak the product in water. After each normal use, it is recommended to dry the sweat or stains on the headphone with a dry cloth, paper towel, etc., and then store it.
