iKF-Rona Wireless Headphones

Please read the manual carefully before operating.
(You need not refer to it for future reference.)

BEFORE USE

Important Safety Instructions

- Read these instructions, and follow the warnings.
- Read the warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with a dry cloth.

WARNING/CUTIONS

Do NOT use the headphones at a high volume for any extended period.

To avoid hearing damage, use your headphones at a comfortable, moderate volume level.

Turn the volume down on your device before placing the headphones on your ears, then turn the volume up gradually until you reach a comfortable listening level.

Do NOT use the headphones with noise canceling at any time the headset is being worn. Noise canceling may present a danger to yourself or others, e.g., while riding a bicycle or walking in or near traffic, a construction site or railroad, etc., and follow applicable local regulations.

Remove the headphones, or use the headphones with noise canceling off, and adjust your volume. Overturn you can hear surrounding sounds, including alarms and warning signals.

Be aware of how sounds that you rely on as reminders or warnings may vary in character when using the headphones.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the users are encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Do NOT make unauthorised alterations to this product, except the user's authority to operate this equipment. This device complies with part 15 of the FCC Rules (standards). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device complies with FCC radiation exposure limits for general population.

Be aware that headphones must not be co-located or operating in conjunction with any other antenna or transmitter.

Service assistance: For assistance with this product, please contact our customer service at the website where you purchased the product, leave a message or email us, we will answer as soon as possible.

TIPS

- Make sure the headset and the connected device are within the correct connection range and there are not too many obstacles that interfere with the signal;
- It is normal for the headset to be disconnected occasionally, just like WiFi, occasionally the connection is unstable. It may be due to interference in signal transmission. Please wait a moment or change the location to resolve;
- When the headset cannot be connected to the device, please check whether the headset has power or is connected to other devices;
- Please fully charge the Headphone once a month, if the Headphone isn't used for a long time, the battery of the Headphones may be damaged;
- The sound insulation and sound leakage of headphones are related to the way of wearing the headphones and the volume of the headphones;
- You can adjust the wearing angle and degree of ear wrapping of the headphones in time according to the actual comfort of use. Please close the earband foam part of the headphones as much as possible;
- Please use a standard-compliant charging head to charge the headset;
- Do not wear the product for bathing, or use it in the rain, and do not soak the product in water. After each normal use, it is recommended to dry the sweat or stains on the headphone with a dry cloth, paper towel, etc., and then store it.
