Model Number **WH08S**

Air Vent Compatibility

Compatible with horizontal and vertical air vents

Not compatible with circular, soft, or irregular-shaped air vents

NOTE: Do not overtighten the vent clip to avoid damage to the air vent blades.

Installation Guide

Step 1

Insert the ball joint into the back of the charger.

Step 2

Tighten the nut.

- 2 -

Step 3

Twist the locking handle to adjust the opening of the clip to fit the air vent.

Step 4

Insert the charger into the air vent, tighten the locking handle to secure it firmly, and adjust the angle for the best view.

Power On

Connect the charger using the included USB-C cable and 45W PD car charger.

Important:

- Use the included 45W PD car charger for optimal performance
- Do not connect to the car's USB port
- Insufficient power may result in slow charging

- 3 -

When & How to Use Metal Ring?

Option 1

For iPhone 12-17 and later model with MagSafe Case.
 No need to use metal ring. (excluding iPhone 16e)

Option 2

For iPhone 12-17 and later models with non-official standard cases.
 Stick the metal ring exactly in the center (both horizontally and vertically) on the back of your phone case. (Please use the included alignment card for assistance).

Warm Tips

1. Please use the included PD port charger adapter to ensure fast charging.
2. If you are using a standard case, make sure to attach the provided metal ring to the correct position on the outside of the phone case using the included alignment card.

*Product Specifications

Model Number	WH08S
Mounting Type	Air Vent
Power Requirement	Requires 45W or higher PD car charger for optimal fast charging (included in package)
Applicable Model (25W Fast Charging)	iPhone 16 / 16 Plus / 16 Pro / 16 Pro Max; iPhone 17 Series (excluding iPhone 16e); Requires iOS 26,0 or later
Applicable Model (15W Standard Charging)	iPhone 12 / 13 / 14 / 15 Series; Requires iOS 17,5 or later
Input	15V $\overline{\square}$ 3A
Output	Up to 25W (Max)
Wireless Charging Protocols	BPP, MPP, PPDE
Transmission Distance	0–3mm: up to 25W fast charging; 3–4 mm: reduced power; 4–6,5 mm: slow charging We recommend using a case with a thickness of 2,5mm or less.
LED Indicator	Light turns on briefly at power-on, remains off during normal use, and flashes only when foreign object detection is triggered

FCC Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
