

Power Bank 5000mAh

User Manual

PRODUCT DIAGRAM

Product Parameters

Item No.:	PS-H048
Capacity:	5000mAh @3.85V 19.25Wh
Type-C Input:	DC 5V3A,9V2A,12V1.5A PD 18W Max
Type-C Output:	DC5V3A,9V2.22A,12V1.67A PD 20W Max
Wireless Output:	15W Max (full bridge or QI2.0)
Size:	68.3 x 105 x 10.5mm

CHARGING THE POWER BANK

- Before first use please fully charge the powerbank.
- Connect the included USB-C cable into the USB-C port on the power bank.
- Connect the other end of the cable to a USB power source such as a wall or car charger.
- The LEDs will light up while it is being recharged.
- When all 4 LEDs are lit the power bank is fully charged.

Note: The 5th LED serves as an indicator for the fast charging mode.

CHARGING YOUR DEVICES

Please use the below charging methods to charge your devices.

1. Through USB-C Port

- Connect a USB cable between the power bank and your device, it will automatically start charging.
- The LEDs will stay on while your phone is charging, and the 5th LED light will illuminate green when fast charging is detected.

2. Through Wireless Charger

- Please place your devices correctly onto the wireless pad, the charging process will commence automatically.
- The LEDs will stay on while your phone is charging, and the 5th LED light will illuminate orange when wireless charging is detected.

Note: In the event that your devices are unable to commence wireless charging automatically, please activate the wireless self-start function by pressing the power button of the power bank for 8 consecutive times.

CHECKING THE BATTERY LEVEL OF THE POWERBANK

- Press the power button, the LEDs will turn on to indicate the charge level.
- The LEDs will automatically turn off after 30 seconds when there is no device being charged. Alternatively, a simple double-press the power button will manually turn off the LEDs.

WHAT' S INCLUDED

- 1 X Powerbank
- 1 x Charging cable
- 1 x User manual

WARNING

- The power bank is NOT a toy and should be kept away from children.

- Please do NOT insert any foreign objects into the openings or port of the power bank.
- Please do NOT attempt to disassemble, repair, or open the power bank in any way.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
