Block Diagram
Operational Description
Schematics

Block diagram.pdf
Operational description.pdf
Schematic Leo_Flex_V30.pdf

These items contain detailed system and equipment description and related information about the product which **ResMed Inc** considers to be proprietary and confidential to the ResMed Group and a custom design, which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, **ResMed Inc** also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would harm **ResMed Inc** and the members of the ResMed Group by giving our competitors an unfair advantage in the market and diminishing the value of our investment in research even after commercial release of the product.

The applicant understands that pursuant to Section 0.457 of the Rules, disclosure of this application and all accompanying documentation will not be made before the date of the Grant for this application.

Pursuant to DA04-1705 June 15, 2004 of the Commission's public notice, we also request temporary confidential treatment of information accompanying this application as outlined below for a period of 180 days:
