These follow the relevant regulations of the origin country and are thus product dependent.

When disposing of electronic materials, always keep away from electrical appliances, gas stoves, refrigerators or electric fans, such as microwave ovens, refrigerators etc., since they may catch fire.

If you wish to use this product in an environment with a temperature of -20°C – $+55^{\circ}\text{C}$, when the ambient temperature is below -10°C , battery performance is limited.

The device must not be used in environments where there are flammable gases or vapours or substances it will interfere with other equipment or cause other changes.

To prevent ageing, avoid direct sunlight or industrial equipment or loading + dust, (keep all parts sealed).

Before throwing away or maintaining this product, stop using this product, has only been used once.

Please dispose of waste electronic products properly in accordance with local laws and regulations, and do not dispose of electrical and electronic equipment, parts, batteries or components in the household waste.

[illegible]

13. This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference that may be received, even if such interference causes undesired operation. Changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

14. This device complies with the limits for Class B digital devices, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a residential installation. This device uses frequency shielding and/or other advanced techniques to help prevent such interference, and it can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications; however, there is no guarantee that interference will not occur in a particular installation.

15. If this equipment does cause harmful interference to radio or television reception, you can try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a different circuit.
- Consult the manufacturer for additional suggestions.

- Connect the equipment into an **exd** or a circuit different from that to which the reactor is connected
- Control the **exd** or an experienced refinery technician for both

The device has been indicated to meet general use exposure requirement. The device can be used in portable exposure condition without restriction
