Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards. Apple, Apple Find My, Apple Watch, Find My, iPhone, iPad, iPadOS, Mac, macOS and watchOS are trademarks of Apple Inc. iOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license. To use the Apple Find My app to locate this item, the latest version of iOS, iPadOS, or macOS is recommended. The Find Items app on Apple Watch requires the latest version of watchOS.	FCC WARNING This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure statement. The device can be used in portable exposure condition without restriction FCC ID:28CGU-J051																					
How to use Find My 1、Device power on Press and hold the button for five seconds. The device will beep and turn on. 2、Bind device ·Open Apple's own "Find My" app. ·Put the device close to your iPhone, tap the "Items" tab, select "Add New Item" and click "Other Supported Items". ·For devices with the word J05, tap "Connect". ·Fill in the "Custom name" to name your device and choose an emoji. ·Agree to register the device to your Apple ID. ·Tap "Finish" to bind successfully. 3、Enable Lost Mode ·Open Apple's own "Find My" app, click "Devices" at the bottom of the screen, and then click the name of the device. ·Under "Lost Mode," click "Enable". ·Follow the on-screen instructions and click "Continue" to enter your contact number or email. ·After clicking "Next" to verify the information, please click "Enable" again to complete the settings. 4、Remove device ·Open Apple's own "Find My" app, click "Devices" at the bottom of the screen, and then click the name of the device. ·Find "Remove Item" at the bottom of the list and tap "Remove" to complete the operation. Note: After deleting the device, the device will emit a prompt tone, and the device will not shut down and is in pairing mode. If there is no re-pairing within 10 minutes, the device will leave the pairing state and the device and app cannot be paired. If you need to pair a device, you need to click the device button once and the device will ring. At this time, the device enters the pairing state and can be paired with the app again.	How to use product buttons 1、Turn on the device Press and hold the button for five seconds. The device will beep and turn on. 2、Device status confirmation Double-click the device button twice and the device will beep, indicating that the device is working. If the device does not beep, it means the device is turned off. Press and hold the button for five seconds to turn on the device. 3、The device re-enters pairing status After deleting the device, the device will sound a beep, device will not turn off, and will be in pairing mode. If there is no re-pairing within 10 minutes, the device will leave the pairing state, and the device and app cannot be paired at this time. If you need to pair a device, you need to click the device button once and the device will ring. At this time, the device enters the pairing state and can be paired with the app again. 4、Reset First, in Find My app, remove the device.
