

MICBOX PRO

MICBOX*1

MICBOX PRO*2

A09B*1

1

>2S

ON/OFF

Power on by holding for 2 seconds

2

The blinking status indicates connecting

While a steady light indicates a successful connection.

3

>5S

FACTORY RESET

Press and hold both buttons for 5 seconds to restore factory settings.

4

Charge via the port at the bottom of the microphone.

The default connection is a 6.5mm port. Rotate the connector clockwise to switch to a 3.5mm port.

ON/OFF

Power on by holding for 3 seconds

Low battery is indicated by a red light.

When the light turns solid (not blinking) while charging, it means the device is fully charged.

Insert three batteries to activate the sterilizing box.

It automatically disinfects every 60 seconds.

Opening the microphone case will stop the automatic disinfection cycle.

FCC Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Statement:

FCC ID: 2BCRN-A09B

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

FCC ID: 2BCRN-MICBOXPRO

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment can be used in portable exposure conditions.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

IC: 32795-A09B

PMN: A09B

HVIN: A09B

This equipment complies with ISED exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

Énoncé d'exposition aux radiofréquences pour ISED

Cet équipement est conforme aux limites d'exposition ISED définies pour un environnement non contrôlé.

Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et la carrosserie.

IC: 32795-MICBOXPRO

PMN: MICBOX PRO

HVIN: MICBOX PRO

ISED Radio Frequency Exposure Statement:

This equipment complies with ISED exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.

Déclaration d'ISDE sur l'exposition aux radiofréquences :

Cet équipement est conforme aux limites d'exposition d'ISDE établies pour un environnement non contrôlé. Cet équipement peut être utilisé dans des conditions d'exposition portables.
