

ROKOKO

27/04/2026

FCC ID: **2BCY2-RKKSG02**

To Whom It May Concern:

We are submitting an application for our Model RKK-SG-02.

The type of certification requested is a new application for integrating a certified radio module in the device, with a decreased output RF power by limiting via firmware.

We need to apply as "Original Equipment" since we will need to use our FCC ID.

This application contains the test reports and all supporting documentation for this type of application certification request.

Sincerely,

By: Kendra Bannister
