**EUT Housing and
Board View 1**

**Solder
Board-Component
View 8**

Solder Board-Component View 9	 A photograph showing a green printed circuit board (PCB) component with a small antenna coil attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is positioned horizontally, with the ruler's 0 mm mark aligned with its left edge. The antenna coil is a circular loop of thin, light-colored wire, secured with a yellow band. Two thin wires connect the coil to the PCB.
Antenna View	Coil Antenna  A photograph showing the same green PCB component and antenna coil as in the previous view. A red rectangular box highlights the circular antenna coil, and a red line points from the text "Coil Antenna" to this box. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is positioned horizontally, with the ruler's 0 mm mark aligned with its left edge. The antenna coil is a circular loop of thin, light-colored wire, secured with a yellow band. Two thin wires connect the coil to the PCB.
