

Series Models Description

FCC ID: 2BD5N-PRN30

Date: January 22, 2026

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

The device (Product Name: **CORDLESS ROBOTIC POOL CLEANER**)

The differences between PRN30-D and PRN31 are as follows:

- I. Regarding the differences in power supply modes: The adapter is shared, and the circuit board is the same. It's just that the N31 board has a few more interfaces, and the connection method displayed externally has changed. The N30 can only be powered by a DC adapter, while the N31 can only be powered by a charging base.
2. the N31 has one more camera circuit board than the N30, while the other circuits are the same. Additionally, there is an extra fill light on the main board of the N31.
3. differences in the added secondary supply batteries: Different manufacturers; The parameters such as capacity are the same.

Sincerely,

Ivy xu/R&DC
