How to pair the light to Smart Life App or Tuya App

1. Download the Smart Life APP or Tuya App from the App Store or Google Play.
2. Log in or set up an account using the on screen prompts.

To enter pairing mode!!!

1. After connecting the light to power supply, open the "Smart Life" or Tuya App and Bluetooth on your phone, press the switch on the controller for about 5s, the light will change to red color and fast flash, then click the add device button in the top right corner of the App.

- 2: Set your WiFi and enter the password. If the string light is WiFi+Bluetooth version, the device will pop up automatically.
3. Wait for the device to add.
4. Once the device has been added, continue to the next screen.
5. A device can be linked to the room where it is located.
6. Then you'll enter, you can set anyone you like, and enjoy your Leisure time using the phone mic, music mode will change the lights in tune with the music playing.

A timer can be set to turn the lights after XX amount of time.

Cleaning:

- Do not expose the LED strip to liquid moisture or humidity to avoid the product's internal circuit of being affected.
- Do not use abrasive cleaning solvents to clean the device- Only clean the product with a slightly damp cloth and mild washing-up liquid

Attention/Danger!

- ATTENTION! The product must be used with a suitable wall charger as described in the specifications under "Input voltage"

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:-Reorient or relocate the receiving antenna.-Increase the separation between the equipment and receiver--. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.-Consult the dealer or an experienced radio/Ty technician for help. To maintain compliance with FCC RF Exposure guidelines, This equipment should be installed and operated with minimum 20mm distance between the radiator and your body: Use only the supplied antenna.
