Bluetooth Audio adapter

① RCA interface
② 3.5mm audio interface
③ on/off switch
④ Music source switching
⑤ Power supply port
⑥ NFC area
⑦ Bluetooth indicator
⑧ Microphone
⑨ Multi-function knob

1. Pair with mobile phone/MP3/Tablet, etc. and turn your car stereo/ home stereo/3.5mm wired headphones into wireless
2. Two modes: Bluetooth mode and SD card mode
3. Support 3.5mm audio cable RCA cable and TF card
4. Automatically connects to the last connected device.
5. Compatible with iOS and Android devices

Wireless Operating distance	30 feet
Power supply	5V $\pm$ 1A (power adapter not included)

Step1: Connect power adapter with the provided USB cable.
Toggle switch to "ON" position (adapter output: 5V $\geq$ 1A)
BR05 SE will automatic power on.

Step2: Connect BR05 SE with your speaker via 3.5mm audio cable OR RCA cable (speaker aux in port).

Step3: Enable Bluetooth on your smart-phone in the settings, search "BR05 SE" and tap on it to start pairing, when successful paired, the Bluetooth indicator will illuminate blue.

A. Wireless mode:
When BR05 SE has been connected to the smart device (such as smartphone) via Bluetooth, play music on the smart device and the speaker will synchronize the music.

Insert the micro SD card and the product will automatically recognize the music from the micro SD card.

Switch music source among Bluetooth&Micro SD: press button to switch the music source between the above 2 sources

- A. Answer a Call:** Short press the "Multi-function knob ⑤".
- B. Hang up a Call:** Short press the "Multi-function knob ⑤".
- C. Redial Last Call:** Double press the "Multi-function knob ⑤".
- D. Reject a Call:** Long press the "Multi-function knob ⑤" for 2 s.

Function	Button	Operation
Power On/Off	Ⓞon/off switch	Toggle switch
Music pause/ play	ⓂMulti-function knob	Short press knob
Previous/next song	ⓂMulti-function knob	Rotate knob anticlockwise/Clockwise
Volume up/down	ⓂMulti-function knob	Keep rotating knob anticlockwise/ clockwise for 2 seconds
Music source selection	ⓂMusic source switch button	Short press
EQ choice	Normal/Classic/Popular/Rock/Jazz	Press your favorite EQ button

The product will automatically pair with the last connected device when turned on. (Before turning on the Wireless receiver, turn on the Bluetooth feature of your smart device).

1. Please make sure you have powered on the receiver, and the toggle switch in right position.
2. Clear the pairing list of your Bluetooth enabled phone, MP3 etc. then try again.

Bluetooth signal can be blocked by surrounding objects and reduce the audio quality, please put it in the right position without barrier between adapter and your phone (or other devices).

The final volume could be affected by the receiver, the speaker and the mobile phone. So please make sure that you have adjusted the volume of all the three devices.

The receiver is designed to be connected automatically to the last connected device. But if we have disconnected the Wireless connection from smart phone or we just close the Wireless function when the receiver was in use, this may happen and you need to reconnect manually.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC'S RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
