

Magnetic Wireless Charger WH-559 3-in-1  User Manual Please read it carefully before use	Product Functions  - Type-C input port - Wireless charging output port for mobile phones - Wireless charging output port for earbatches - Wireless charging output port for watches	Technical Parameters Model: WH-559 Color: White Material: ABS+PC Input: 5V-3A, 9V-3A Mobile Phone Output: 5W/7.5W/10W/15W Max Earbuds Output: 3W Max Watch Output: 2W Max Total Output: 20W Max * The above parameters are derived from the product plan agreement, and the actual parameters are based on the product different factors such as parts and external temperature.	Instructions for Use  - The wireless charger comes with a 1M cable, connect the adapter to the power supply. - Place your magnetically compatible phone/watch/earphone on the wireless charger, and the charger will automatically align and begin magnetic charging.	Precautions - It is recommended to use a high-power adapter above 20W for better experience. - This product has input over-current and over-voltage protection function, if improper use will shut down or reduce the output power, please check whether the equipment is abnormal or improper use. - Keep the operating environment temperature at 0-25°C. Do not place the product in water, fire, high (>40°C) and low temperature(<-20°C) environments, and keep out of children's reach. - Please use a dry soft cloth to clean the surface, do not use chemicals, soap or detergent to clean. - Improper use or improper placement of this product by the user may result in loss of life or damage to this product, which is not covered by the warranty, please understand. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. FCC Radiation Exposure Statement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.	Chargeur magnétique sans fil WH-559 3 en 1  Manuel d'utilisation Veuillez lire attentivement ce manuel avant utilisation	Fonctions du Produit  - Port d'entrée USB-C - Port de sortie pour la charge sans fil des téléphones portables - Port de sortie pour la charge sans fil des écouteurs - Port de sortie pour la charge sans fil des montres	Paramètres Techniques Modèle : WH-559 Couleur : Blanc Matériau : ABS+PC Entrée : 5V-3A, 9V-3A Sortie pour téléphone : 5W/7.5W/10W/15W Max Sortie pour écouteurs : 3W Max Sortie pour montre : 2W Max Sortie totale : 20W Max * Les paramètres ci-dessus sont issus du contrat de planification du produit et les paramètres réels sont basés sur différents facteurs du produit, tels que les pièces et la température extérieure.	Mode d'emploi  - Le chargeur sans fil est fourni avec un câble de 1 M. Connectez l'adaptateur au secteur. - Placez votre téléphone/montre/écouteurs compatibles magnétiquement sur le chargeur sans fil, et celui-ci s'alignera automatiquement et commencera la charge magnétique.	Précautions - Il est recommandé d'utiliser un adaptateur haute puissance de plus de 20 W pour une meilleure expérience. - Ce produit est doté d'une protection contre les surintensités et les surtensions d'entrée. Si une mauvaise utilisation entraîne une coupure ou une réduction de la puissance de sortie, veuillez vérifier l'appareil et son utilisation. - Maintenez la température ambiante de fonctionnement entre 0 et 25 °C. Ne placez pas le produit dans l'eau, le feu, les environnements à haute (> 40 °C) et basse (< -20 °C), et tenez-le hors de portée des enfants. - Utilisez un chiffon doux et sec pour nettoyer la surface; n'utilisez pas de produits chimiques, de savon ou de détergent. - Une mauvaise utilisation ou un mauvais positionnement de ce produit par l'utilisateur peut entraîner des blessures graves ou des dommages matériels, non couverts par la garantie. Merci de votre compréhension. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Magnetisches kabelloses Ladegerät WH-559 3-in-1  Bedienungsanleitung Bitte vor Gebrauch sorgfältig lesen	Produktfunktionen  - USB-C-Eingang - Anschluss zum kabellosen Laden von Mobiltelefonen - Anschluss zum kabellosen Laden von Kopfhörern - Anschluss zum kabellosen Laden von Smartwatches	Technische Daten Modell: WH-559 Farbe: Weiß Material: ABS+PC Eingang: 5V-3A, 9V-3A Telefon-Ausgang: 5W/7.5W/10W/15W Max Kopfhörer-Ausgang: 3W Max Uhr-Ausgang: 2W Max Gesamt-Ausgang: 20W Max * Die oben genannten Parameter basieren auf den technischen Daten des Produkts. Die tatsächlichen Parameter können je nach produktpezifischen Faktoren wie Bauteilen und Umgebungstemperatur variieren.	Gebrauchsanweisung  - Das kabellose Ladegerät wird mit einem 1 m langen Kabel geliefert. Schließen Sie das Netzteil an eine Stromquelle an. - Legen Sie Ihr magnetisch kompatibles Telefon/Ihre Uhr/Ihren Kopfhörer auf das kabellose Ladegerät, und das Ladegerät richtet sich automatisch aus und beginnt mit dem magnetischen Ladevorgang.	Vorsichtsmaßnahmen - Für ein optimales Ladeerlebnis empfehlen wir die Verwendung eines Netzteils mit einer Leistung von mindestens 20 W. - Dieses Produkt verfügt über einen Schutz gegen Überstrom und Überspannung. Bei unsachgemäßer Verwendung schaltet sich das Gerät ab oder reduziert die Ausgangsleistung. Bitte überprüfen Sie, ob das Gerät defekt ist oder unsachgemäß verwendet wird. - Die Betriebstemperatur sollte zwischen 0 und 25 °C liegen. Setzen Sie das Produkt weder Wasser noch Feuer aus und bewahren Sie es außerhalb der Reichweite von Kindern auf. - Reinigen Sie die Oberfläche bitte mit einem trockenen, weichen Tuch. Verwenden Sie keine Chemikalien, Seife oder Reinigungspräparate. - Unsachgemäße Verwendung oder unsachgemäße Platzierung dieses Produkts durch den Benutzer kann zu Todesfällen oder Schäden am Produkt führen. Dies ist nicht durch die Garantie abgedeckt. Bitte haben Sie dafür Verständnis. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Caricabatterie magnetico wireless WH-559 3 in 1  Manuale utente Leggere attentamente prima dell'uso	Funzioni del Prodotto  - Porta di ingresso Type-C - Porta di uscita per la ricarica wireless per telefoni cellulari - Porta di uscita per la ricarica wireless per auricolari - Porta di uscita per la ricarica wireless per orologi	Parametri Tecnici Modello: WH-559 Colore: Bianco Materiale: ABS+PC Ingresso: 5V-3A, 9V-3A Uscita per telefono: 5W/7.5W/10W/15W Max Uscita per cuffie: 3W Max Uscita per orologio: 2W Max Uscita totale: 20W Max * I parametri sopra indicati derivano dal contratto di fornitura del prodotto e i parametri effettivi si basano su diversi fattori del prodotto, come componenti e temperatura esterna.	Istruzioni per l'uso  - Il caricabatterie wireless è dotato di un cavo da 1 M, collegare l'adattatore all'alimentazione. - Posizionare il tuo telefono/orologio/auricolare magneticamente compatibile sul caricabatterie wireless. Il caricabatterie si allineerà automaticamente e inizierà la ricarica magnetica.	Precauzioni - Si consiglia di utilizzare un adattatore ad alta potenza superiore a 20 W per un'esperienza migliore. - Questo prodotto è dotato di una funzione di protezione dal sovraccorrente e sovratensione in ingresso. Se un uso improprio dovesse causare lo spegnimento o la riduzione della potenza in uscita, verificare che l'apparecchiatura non sia anomala o non sia stata utilizzata in modo improprio. - Mantenere la temperatura ambiente di funzionamento tra 0 e 25 °C. Non immergere il prodotto in acqua, fuoco, ambienti con temperature elevate (>40 °C) e bassi (<-20 °C) e tenere fuori dalla portata dei bambini. - Utilizzare un panno morbido e asciutto per pulire la superficie; non utilizzare prodotti chimici, sapone o detersivi. - L'uso improprio o il posizionamento improprio di questo prodotto da parte dell'utente possono causare la perdita della vita o danni al prodotto stesso, che non sono coperti dalla garanzia. Si prega di comprenderlo. This device complies with part 15 of the FCC Rules.
