| <p><b>Solder<br/>Board-Component<br/>View 2</b></p> |  A photograph showing a small green printed circuit board (PCB) component with a circular silver solder pad. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters, with the vertical scale ranging from 0 to 100 mm and the horizontal scale ranging from 0 to 100 mm.                                               |
| <p><b>Antenna View</b></p>                          |  A photograph showing the same green PCB component from a different angle. A red rectangular box highlights a series of parallel metal strips on the top edge of the board, which are identified as the BLE antenna. A red line points from a label box to this area. The component also features a circular silver solder pad and various electronic components like a chip and capacitors. |
