

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a small electronic component, likely a solder bridge or a small PCB, placed on a blue textured surface. The component is green with a white label that includes the text "H7520" and "H7520". A thin black wire is attached to the component. A black ruler with white markings is positioned horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph of the same electronic component from a different angle, showing the underside. The component is green with a white label that includes the text "H7520" and "H7520". A thin black wire is attached to the component. A black ruler with white markings is positioned horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 4	 A photograph showing a small green printed circuit board (PCB) component with a long, thin, curved antenna wire extending from it. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mark at the bottom. The antenna wire is approximately 100 mm long.
Antenna View	Antenna  A close-up photograph of the antenna wire, which is a thin, black, flexible cable. The wire is curved and extends from a small green PCB component. A red rectangular box highlights the curved portion of the antenna. A red line points from the label 'Antenna' to the top of the wire. The background is a blue textured surface, and a black ruler with white markings is visible at the bottom.
