

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph showing a small electronic component, likely a solder bridge or a small PCB, placed on a blue textured surface. The component is green and has several solder joints. A black wire is attached to it. A black ruler with white markings is positioned vertically and horizontally next to the component for scale. The vertical ruler shows markings from 0 to 100 mm, and the horizontal ruler shows markings from 0 to 100 mm.
Solder Board-Component View 3	 A photograph showing the same electronic component from a different angle (View 3). The component is green and has several solder joints. A black wire is attached to it. A black ruler with white markings is positioned vertically and horizontally next to the component for scale. The vertical ruler shows markings from 0 to 100 mm, and the horizontal ruler shows markings from 0 to 100 mm.

Solder Board-Component View 4	 A photograph showing a small green printed circuit board (PCB) component with a thin black wire attached. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mark at the bottom. The component is located approximately at the 10 mm mark on the ruler.
Antenna View	Antenna  A photograph showing the same green PCB component and black wire as in the previous view. A red rectangular box highlights the black wire, which is curved upwards. A red line points from the label "Antenna" to this box. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically, with the 0 mark at the bottom. The component is located approximately at the 10 mm mark on the ruler.
