

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board. The housing is an orange plastic component. The board is a green printed circuit board (PCB) with various electronic components, including a black integrated circuit (IC), several capacitors, and a black wire. A black ruler is placed next to the components for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A photograph showing the solder board-component. The component is a green PCB with various electronic components, including a black IC, capacitors, and a black wire. A black ruler is placed next to the component for scale, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, labeled 'WaveH4 v12' and 'G1524', resting on a blue textured surface. A black wire is soldered to the top of the board. A black L-shaped ruler with white millimeter markings is placed next to the component for scale. The ruler shows the component is approximately 20mm wide and 15mm high.
Antenna View	 A photograph of the same green PCB component from a different angle, showing the underside. A black wire is soldered to the board. A red rectangular box highlights the wire and its connection point. A red line extends from this box to a label 'Z-Wave Ant.' located in a red-bordered box at the bottom right of the image. A black L-shaped ruler with white millimeter markings is placed next to the component for scale.
