

Class II permissive change letter
For Additional frequencies added by software

Date: 2026-1-6

To:

Federal Communications Commission
Authorization and Evaluation Division
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

To Whom It May Concern,

FCC ID: 2BDC6-WAVEPLUGUS; Model Number: Wave Plug US

This is to advise and officially, that we, **Shelly Europe Ltd.** hereby declare that:
additional frequency (920MHz) added by software, and the following conditions are
complied.

1) No hardware changes have been made.

Yes, No any hardware changes.

2) There is no increase in the output power rating on new frequencies (unless such
exceptions are permitted by rules or KDB publications - see V) G)).

Yes, this change is no increase in the output power rating on new frequencies.

3) The Equipment Class remains the same. (Changes that require a new Equipment Class
code require a new grant of certification (FCC ID), except for SDR approvals.)

Yes, the equipment class is the same as original application.

4) RF exposure changes must be addressed.

Yes, RF exposure is addressed.

5) Only the original equipment manufacturer may implement the new frequencies.

Yes, this change is completed by the original equipment manufacturer.

6) There are no other changes to the device that indicate a need for a new FCC ID.

Yes, there are no other changes except add a new frequency.

If you have any query, please feel free to contact me.

Sincerely,
