A close-up photograph of a Nanya 2216 NT5TU64M16HG-AC memory module mounted on a green printed circuit board (PCB). The module is a black, rectangular integrated circuit with the Nanya logo and part number clearly visible. The PCB features various components, including capacitors (C6, C7, C8) and resistors (R130, R126, R119, R123, R145, R157, R158, R142, R147) labeled with white text. The module is connected to the PCB via gold-plated pins.

[illegible]
