

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing, including a green circuit board, a white circular component, and a black circular component, placed next to a ruler for scale.
EUT Housing and Board View 2	 A photograph showing the internal components of an EUT housing, including a white circular component, a black circular component, and a silver component, placed next to a ruler for scale.

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, identified as a solder board component in View 1. The component is rectangular with a central circular area and several small components. It is connected to a circular copper pad via a thin wire. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 2	 A photograph of the same green printed circuit board (PCB) component, identified as a solder board component in View 2. This view shows the component from a different angle, highlighting the central circular area and the surrounding components. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 3	 A photograph of a small, green, rectangular printed circuit board (PCB) component. The component has a central circular feature and several small electronic components mounted on it. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 4	 A photograph of a small, green, rectangular printed circuit board (PCB) component, similar to the one in View 3, but with a different component mounted on it. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
