2. Product Parameter

Model : GJS-D013	Color temperature : 2900K - 6000K
Material : Aluminum alloy + ABS	Color rend ering index : Ra 80
Input voltage : 5V	Product size : 420 x 90.5 x 35mm
Rated power : 3.5W	Product weight : Touching control-35g
Light source : LED	Remote control-40g
	Executive standard : GB 7000.1-2015
	GB 7000.2-04-2

3. Product list

4. Names and list of hazardous substances in product

Part Name	Hazardous substances					
	Lead (Pb)	Mercury (Hg)	Calcium (Cd)	Hexavalent Chromium (Cr(VI))	Polychlorinated Biphenyls (PCBs)	Polycyclic Aromatic Hydrocarbons (PAHs)
Metal parts	○	○	○	○	○	○
Plastic parts	○	○	○	○	○	○
USB cable	○	○	○	○	○	○
PCBA	×	○	○	○	○	○

This form is completed in accordance with SJ/T 11364.

○ It indicates that the content of the toxic and harmful substance in all homogeneous materials of the component is below the limit specified in GB/T 26572 standard.

× The content of toxic and harmful substances in at least one homogeneous materials of this limit stipulated in GB/T 26572 standard.

- Unauthorised maintenance, misuse, collision, negligence, abuse, fluid ingress, accident, alteration, or removal or alteration of labels, security markings.
 Warranty period expired.
 Damage caused by force majeure.
 Failure to meet the performance faults listed in the "Product Performance Faults Table".
 Product performance faults listed in the "Product Performance Faults Table" are caused by human factors.
 Performance faults caused by the use of dimmers, use of non-rated voltages, use in non-specified environments.

7. Product performance failures

Product Name	Performance Failure
LYMAX screen hanging light L1	Light is out. Lack of accessories makes the product unusable. Breakage of the casing caused by the product itself or by material factors.

8. RF exposure statement

9.FCC Warning

This device complies with Part of the FCC Rules. Operation is subject to the following two conditions:
 1) This device may not cause harmful interference, and 2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause the user interference to radio or television reception, you can try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Plug the power cord into a different wall outlet, or use a power line conditioner/surge protector.
- Consult the dealer or a qualified radio/television technician for help.

The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
