主要参数

芯片:JL	音乐时间约:3-4小时
蓝牙版本:BT5.3+EDR	耳机待机时间约:100小时耳机
材料:ABS	接收距离:15米（无障碍环境下）
耳机电池容量:约35mAh	喇叭直径:13mm
充电盒电池容量:200mAh+保护板	蓝牙协议: HSP,HFPA2DPAVRCP/ SPP/PEAP
充电盒给双耳充电次数约:3次	喇叭频响:20Hz- 20kHz
耳机充电时间约:1小时	喇叭阻抗:32欧
通话时间约:2-3小时	喇叭灵敏度:100±3dB

AUTO-CONNECT: In the phone did not delete the connection

through the headset matching name, open the cover can

automatically connect back

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
