

Avinox Phone Charging Mount Instructions

Please read the instructions carefully before using

Parameters:

Features:

- Fast charging with 15W output.
- Custom made magnet array, precisely compatible for iPhone 17/16/15/14/13/12 series phones.
- 360 degree rotation for your optimal viewing angle.
- Cradleless design, easy to hold and remove the phone.
- Package includes a high efficient Type C charging cable.

Product specification:

Magnetic charging head:	
Voltage	12VDC / 3A
Output	15W (Max)
USB-C	5VDC/3A 9VDC/2.2A 12VDC/1.67A 20W (MAX)
FCC ID	2BDOG-APCM01

Attentions:

1. Please use the product correctly according instructions.
2. Please do not disassemble the product or throw it to fire and water, to avoid leakage that caused by electrical short circuit.
3. Please do not use wireless charger in high temperature, wet, corrosive environment, to avoid leakage that caused by damaged circuit.
4. Please do not put wireless charger close to cards with magnetic stripes or chips (ID card, credit card etc.) to avoid demagnetization
5. Please keep wireless charger at least 20 CM distance away from implantable medical device (heart pacemaker, Implantable cochlea etc.) to avoid potential interferences.
6. Please do safekeeping, do not let your kids treat wireless charger as toy to avoid unwanted accidents.

The pictures only supplies the reference, please take the actual product as the standard.

FCC Statement

FCC ID: 2BDOG-APCM01

FCC WARNING: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for an uncontrolled environment. The equipment should be installed and operated with a minimum distance of 20cm between the product and your body.

Attentions:

EU

This device in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU, All essential radio test suites have been carried out. This device will be applied to all Member States of European Union. The device complies with RF specifications when the device is used at 20cm from your body.

Declaration of Conformity

Hereby, Dong guan Chuang Jie Electronics Co., Ltd. declares that the product type APCM01 is in compliance with Directives 2014/53/EU & 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address: [Http://www.dgchuangjie.net](http://www.dgchuangjie.net). This device was tested for uncontrolled environment operations. To comply with RF exposure requirements, a minimum separation distance of 20cm must be maintained between the user's body and the product.

Field intensity: 110-148 kHz,
Max Radiated H-Field: -23.06dBμA/ m@10m
