Thank you for purchasing the HBB081AL Baby Monitor. With our baby monitor, you could see and hear your baby sleeping or playing in their room anytime.

Please refer to our user manual and read it carefully for your records. For warranty service of your product, you will need to provide a copy of your dated manual to confirm warranty status. Reproduction is required for warranty coverage.

PLEASE MAKE SURE THE FOLLOWING INCLUDES IN YOUR PACKAGE

Parent unit x 1 Wall-mounting kit x 1 Power adapter x 2

A. SAFETY INSTRUCTIONS

Caution: Keep the device away from children.

Strangulation hazard: Children have STRANGLED in beds, kept their head out of the reach of children lower than their head level. Never use accessories with AC Adapter. Only use the AC Adapter provided.

Choking hazard: This product contains small parts, please keep the children away from the product and assemble the product.

Read and keep the instructions: All safety warnings operating in instructions should be read before this baby monitor is operated. This product cannot replace responsible adult supervision.

Waterproofing: The parent unit should not be exposed to rain, lightning, lightning or lightning. No objects (with liquid) should be placed on top of, or inside the product, such as glass or water. This item should not be used near water.

Do not: Attempt to repair or adjust any of the electrical or mechanical functions of the unit. Otherwise, the equipment will be made void.

Warning: This baby monitor should not be used as a bed, sofa, or similar surface that may block the ventilation opening, or the parent unit enclosed near the back of a bookcase or drawer that may impede air flow.

Keep away from sources of heat: This device should not be placed near direct sources such as a radiator, radiator, heat register, stove or other appliance that emits heat. The unit should be placed in a dry, well-ventilated area.

Power supply: This unit should only be used with the AC power adapters included in the package (model DC 1.2A).

Power switching: This unit should be provided to qualified personnel only when the power is switched on.

1. The units will not operate if the power is not connected to the power supply.

2. The units will not operate if the power is not connected to the power supply.

3. The units will not operate if the power is not connected to the power supply.

4. The units will not operate if the power is not connected to the power supply.

B. WARRANTY TERMS

We offer one year warranty from the original purchase date against defects in workmanship and materials. If a product warranty or repair claim arises, please contact our after sales service email.

* To use your product and to return it together, you have to establish a radio link between the parent unit and the baby unit.

* The large metal mesh, like a refrigerator, a mirror, a filing cabinet, metal doors or windows can interfere with the baby and parent unit.

* The signal strength may also be reduced by other substationers, like walls, or by radio or electrical equipment, such as TVs, computers, cordless or mobile phones. Therefore, lights or driver lights.

* Use of other 2.4GHz products, such as wireless networks (Wi-Fi networks), Bluetooth phones, or microwave ovens, may cause interference between the parent unit and the baby monitor. Please move at least 30 ft. away from such products, or turn them off if they cause interference.

* Place the camera within 2 feet (0.6 m) of the area being monitored for optimum performance.

* The camera can be placed on the monitor or mounted on the wall. Do not place baby monitor unit directly on top of the corner of cabinet, shelves, etc. If you place the baby monitor away from heat sources such as radiators, showers, heaters and so on, please keep the baby unit away from TV sets, microwave ovens, etc. If you place the baby monitor, move the camera to follow.
