Information to User FCC warnings: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance with the user's authority to operate this device are prohibited. This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules, which limits the radio frequency energy from this device to protect against harmful interference in a residential installation. This device uses shielding to meet the requirements for Class B limits. If you are experiencing interference problems, you may wish to consult the manufacturer's manual for recommendations. If the interference persists, contact the manufacturer for more information. However, there is no guarantee that interference will not occur in all installations. If you experience interference to radio or television reception, you can try the following steps to reduce the interference: - Reorient or relocate the receiving antenna. - Move the device away from the receiving equipment and receiver. - Consult the equipment user's manual for additional information. - Consult the dealer or an experienced radio/TV technician for help. This device has been evaluated to meet general RF exposure limits for uncontrolled environments. It can be used in portable operation without restriction. Corso di sostituzione della carta

1. **2. Posizionare il vecchio nastro di carta e inserire il nuovo nastro di carta nella direzione indicata.** La cartolina indica sempre l'entrata e l'uscita dello stesso. Il nuovo cartolina temperaturata deve essere espunta per 2 cm al larghezza del contenitore della carta in modo che la macchina possa inserirla automaticamente. La carta quando è contenuta dalla carta è supportata.

3. **3. Copiare il contenuto della carta.**
Il trasceglia può assumere automaticamente la carta dopo il rimando all'utente.

4. **4. Dopo aver esagerato il contenuto, le operazioni sono terminate.** Il trasceglia può dunque ritornare, dopo
