

INTEGRATED SERIES

4001990

Operation explanation:

Specifications:

Driver Units: 4" x 2
Frequency response: 50Hz-20KHz
Separation: ≥40 dB
S / N: ≥55 dB
Distortion: ≤1% (1K, 1W)
Voltage/Frequency: DC 5V --- 2A
Build-in Li-battery: 7.4V/5400mAh
Dimensions: W326 x D150 x H211.5 (mm)

Features:

- Quality integrated with built-in amplifier
- Full audio spectrum performances, ideal for your favorite entertainment from Mp3, Mp4, CD/DVD movies and digital playbacks.
- Quality materials : Only the best components to recreate sound faithfully across all frequencies.

Package contents:

Speaker	-----	1 pc

FCC Compliance:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and
- 2) This device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to the user:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user:

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions

BT Pairing Method

Press "Mode" button on the remote or "U/M" button on speaker top panel goes BT mode , and the Bluetooth key light starts to blink slowly to search for Bluetooth devices. Turn on your mobile Bluetooth device and search for the device name " 4001990 " to match them nicely. When you successfully pair, your phone is connected to the speaker system, and the Bluetooth key lights up. When the phone music starts to play, the Bluetooth key lights up. You can perform functions such as PLAY/PAUSE on the top panel. In BT mode, when connecting the mobile phone, long press the " > " button, the Bluetooth function can be forced to disconnect.
