The control of the remote control is achieved by briefly pressing the corresponding button.

LED indicator light: Press the button to light up the indicator light, and it will turn off within 3 seconds after being released; When the battery level is low, press the button to dim the LED brightness, and at the same time, the remote control distance becomes closer; Stop working when the battery level is below 2.3V.

During the disposal process, current normative documents formulated by local legislative bodies should be followed.

Technical Parameter

Working Mode: OOK

Operating Frequency: 433.94MHz

Radiation Intensity: Not exceeding 2mW

Remote Control Distance (20±5) °C: Open environment greater than 80 meters

Battery Model: CR2032

Working Voltage: 3V

Ambient Temperature: -20°C ~ +50°C

Size: 49x36x11mm

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
