3. Simple operation instructions

2.4G mode: take the mouse out of the package, turn the mouse power switch to the "ON" position, insert the receiver into the USB port of the computer, and then use it after the connection is successful.

BT mode: Open the package, take out the mouse, switch the power switch to the "ON" position, and then switch the mouse to BT1 or BT2 mode, hold down the "mode switch" key (more than 3 seconds), at this time the BT1 or BT2 indicator light flashes quickly, then the mouse is in the pairing state, take the Win10 system as an example: set - Bluetooth - ON, search for the Bluetooth name of the mouse. Click to pair and use it.

Note: If the mouse cursor cannot move normally during use, please ensure that the battery is normal, if the battery is insufficient, please charge the battery in time!

FCC Compliance:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and
- 2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.
