NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a residential installation. This equipment may cause interference to other devices if it is not properly installed and used. If you are experiencing interference, you may need to take the following steps: (a) Reorient or relocate the receiving antenna. (b) Increase the distance between the equipment and the receiver. (c) Use shielded cables. (d) Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Warning Statement:
This equipment complies with FCC radiation exposure limits set forth for uncontrolled environments. This equipment can be used safely without restrictions.
