

Product Specification

Manufacturer: Bach Audio (Shenzhen) Co., LTD

Product name: digital display three-in-one mobile power supply

Model: DP01

specifications :

Type-C port input: 5V $\equiv$ 3A, 9V $\equiv$ 3A, 12V $\equiv$ 2.9A 15V $\equiv$ 2.3A 20V $\equiv$ 1.75A

Type-C port output: 5V $\equiv$ 3A 9V $\equiv$ 3A 12V $\equiv$ 2.9A 15V $\equiv$ 2.3A 20V $\equiv$ 1.75A

USB port output: 5V $\equiv$ 3A 9V $\equiv$ 2A 12V $\equiv$ 1.5A 10V $\equiv$ 2.25A

Wireless charging output: 5W/7.5W/10W/15W

Total output: 5V $\equiv$ 3A

Battery specifications:

Battery capacity: 5500mAh

Rated battery capacity: 5000mAh/7.7V Dc/38.5Wh two cells in series

(The differences between different models are different appearance styles, different product names, different model names (to distinguish different sales regions and customers), different shell colors (the same material thickness), and other completely the same. The differences do not affect the safety of the product.)

Safe use instructions:

warn

1. Do not put the product in fire or heat, nor store in high temperature environment.
2. Do not put the positive and negative poles of the product in reverse on the charger.
3. Do not use metal wire or metal object to short circuit the positive and negative poles of the product.
4. Do not nail the product or hammer it with a hammer.
5. Do not disassemble or modify the external structure of the product.
6. Do not immerse the product in water or store it wet.

pay attention to

1. Charge/discharge with the charger specified by the manufacturer and operate correctly.
2. If the cell is burned, changed color, deformed, leakage or any other deformation, it cannot be placed in the charging process.
3. If children use this product, they should be told the correct way to use it to ensure that children use it correctly.
4. If there is any abnormality or burning after purchase, please contact the manufacturer and return it.
5. Please use or store the product in the above environment, otherwise the cell is easy to heat up, damage or degrade performance.
6. If the consumer uses a power adapter to supply power, he/she should purchase a power adapter that is certified by CCC and meets the standard requirements.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
