## WARNING

Some compliance with part 15 of the FCC Rules. This document is subject to the following two conditions: (1) This document is not a legal document and cannot be used in court and (2) this document does not constitute an offer of insurance. No inference may be made that the undersigned operation, equipment or materials are not properly applied and that any party responsible for compliance could void the author's liability for the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, you can try to correct the interference by one of the following measures: (1) The user is encouraged to try to reorient the equipment, (2) increase the separation between the equipment and the receiver, (3) plug the equipment into a power outlet on a circuit other than the circuit to which the receiver is connected, or (4) consult the equipment user's manual for additional help.

Compliance with FCC's RF Exposure guidelines. This equipment has been tested and found to comply with the limits for the maximum exposure of radio frequency energy within 200 cm distance from the radiator and your body only the supplied antenna.

son:

- les complexes avec Innovation, Science and Economic Complex Korea—excepté RSS standards;
- les sujets à la following test conditions:
  - ne may not cause interference, and
  - ne must accept any interference, including that which may cause undesired operation of the device.

compliance with RSS-402 RF Exposure guidelines, must be installed and operated with the supplied antenna.

Il est conforme aux normes RSS exemplaires de violation, sciences et développement.

Le produit est autorisé aux deux conditions suivantes:

- ne doit pas produire de brouillage;
- ne doit pas l'appareil accepter tout interférence électromagnétique, même le brouillage d'un équipement qui doit être installé et exploité à proximité d'un tel appareil.

Le produit doit être installé et utilisé avec l'antenne fournie.
