FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Operation with or without modification of this device requires the user to accept the responsibility for compliance with all of the user's local, state, federal and foreign regulations.

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not installed and used properly, it may cause interference to other equipment, and may be subject to interference from other stations.

Operation of this equipment with certain accessories will not occur in a particular installation if this equipment does cause interference. If such interference does occur, the user is advised that the user can determine if turning the equipment off will reduce the interference. If this does not solve the problem, the user should be advised to take one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Interference compliance with FCC's RF Exposure guidelines.

This equipment shall be installed and operated with minimum 20cm distance between the radiator and your body. Use only the supplied antenna.

Important: Change or modifications not expressly approved by the manufacturer void the warranty and may void the user's authority to operate the equipment.

EU Caution:

In English:
This device complies with Innovation, Science and Economic Development Canada's license-exempt RF standard (Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.)

In French:
Cet appareil respecte les normes ICES de l'Innovation, de la Science et du Développement Économique du Canada. (Le fonctionnement est soumis aux deux conditions suivantes:
(1) L'appareil ne doit pas produire d'interférence, et
(2) L'appareil doit accepter toute interférence reçue, y compris l'interférence qui pourrait causer un fonctionnement indésirable.)

Important: Toute modification ou changement non approuvé par le fabricant annule la garantie et peut annuler l'autorisation de l'utilisateur d'utiliser l'appareil.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.
